Art Unit: 2181

1. The examiner acknowledges the addition of new claims 18-19 by the Preliminary Amendment filed on 11/30/2001. Claims 1-19 are presented for examination.

2. The declaration is defective. It does not adequately identify at least one error as per CFR 1.175(a)(1). Stating that one filed a broadening reissue to "remove limitation", without identifying the specific feature is not adequate. Rather, the oath/declaration must specifically identify an error.

Furthermore, the examiner wants to remind that an exact copying of the new claim does not meet the requirement. It is not sufficient to merely reproduce the claims with brackets and underlining and state that such will identify the error. See MPEP 1414.

3. This reissue application was filed without the required offer to surrender the original patent or, if the original is lost or inaccessible, an affidavit or declaration to that effect. The original patent, or an affidavit or declaration as to loss or inaccessibility of the original patent, must be received before this reissue application can be allowed. See 37 CFR 1.178.

4. The instant Application is a reissue of US Patent Application No. 08/779,632, US Patent ~~5~~,996,036 which applicant claims now is a continuation of US Patent Application No. 08/432,622. However, applicant failed to claim such priority in

Art Unit: 2181

US Patent Application No. 08/779,632. Since the reissue application was filed on or after November 29, 2000, applicant would have to file a petition for an unintentionally delayed priority claim under 37 CFR 1.78(a)(3) and (a)(6). See MPEP § 201.11.

5. Claims 1-19 are rejected as being based upon a defective reissue declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The nature of the defect(s) in the declaration is set forth in the discussion above in this Office action.

6. The specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

7. The drawings filed on 11/30/01 are approved by the USPTO draftsman. Direct any inquiries concerning drawing review by the USPTO draftsman to the Drawing Review Branch at (703) 305-8404.

8. Claims 1-19 are allowable over the prior art considered. As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).

Art Unit: 2181

9. The prior art filed by applicant on 8/9/02 has been considered by the examiner and made of record in the file.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Peter Wong, can be reached on (703) 305-3477. The fax phone numbers for this Group are (703) 746-7238 for "After-final", (703) 746-7239 "official" and (703) 746-7240 for "Non-official/Draft".

All Internet e-mail communications will be made of record in the application file. PTO employees do not engage in Internet communications where there exists a possibility that sensitive information could be identified or exchanged unless the record includes a properly signed express waiver of the confidentiality requirements of 35 U.S.C. 122. This is more clearly set forth in the Interim Internet Usage Policy published in the Official Gazette of the Patent and Trademark on February 25, 1997 at 1195 OG 89.
